TELDIO TRUFLEET PLUS FOR AVTEC

Real-Time Indoor and Outdoor Location Tracking, Messaging, and Alarm Management Using Two-Way Radios within your Avtec Scout Console

STRENGTHEN YOUR AVTEC DISPATCHING SOLUTION WITH TELDIO

TruFleet Plus is available directly within your Avtec Scout Consoles to enable accurate location tracking for both indoor and outdoor environments, real-time messaging capabilities, and automated alarm management.

- Reduce the number of siloed applications in use
- Locate employees and assets quickly and accurately
- Relay messages via the most appropriate channel
- Decrease response times to emergencies and critical situations

ALARM MANAGEMENT

Send and manage alarms from your access control systems, fire panels, sensors, and more, directly in your Avtec Scout Console.

HIGH SCALABILITY

Teldio TruFleet Plus works with your existing radio system, with the ability to handle thousands of radios.

SIMPLE DEPLOYMENT

Teldio TruFleet Plus is installed directly into your Avtec Scout Console, making the deployment process quick and easy.

REAL-TIME LOCATION TRACKING

Accurately track the location of employees, assets, and vehicles, both indoors and outdoors.

RADIO MESSAGING

Easily send messages to your employees from within your Avtec Scout Console.
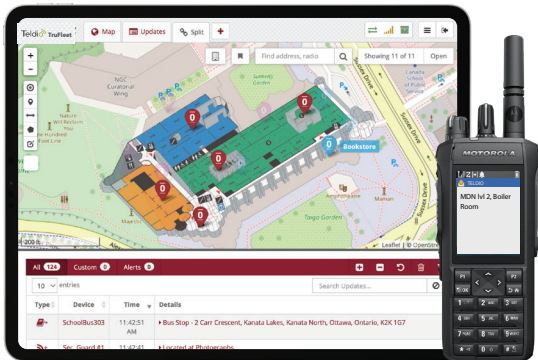

CUSTOMIZABLE MAPPING

Import your own indoor and outdoor standard-based maps, enabling a familiar visual view of your environment.
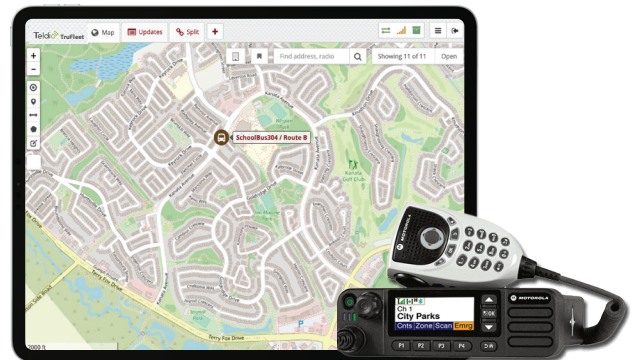

PRECISION LOCATION CAPABILITIES AND AUTOMATION

Stay connected to your employees, vehicles, and assets around the clock and in real-time by tracking the location and movements of MOTOTRBO radios. Teldio TruFleet Plus improves communication with your remote workers to enhance productivity and ensure the safety of your employees and valuables assets, all from within your Avtec Scount Console.

INDOOR TRACKING

Monitor Your Employees' Location and Safety

Track the location of your personnel to quickly find employees in an emergency, or direct the closest person to an event.

OUTDOOR TRACKING

Track Your Fleet and Valuable Assets

Know the location of your fleet of school buses, utility trucks, or any vehicle or asset equipped with a MOTOTRBO radio in real time.

AUTOMATION BASED GEO-FENCING, LOCATIONS, AND EVENTS

With Teldio TruFleet Plus seamlessly automates workflows based on geo-fencing, locations, and events to efficiently monitor assets, track vehicles, and trigger alarms by leveraging real-time notifications and intelligent triggers. Teldio interfaces directly into your Avtec Scout Console, integrating your two-way radio fleet with other systems workflows, logistics, supply chains, and operations.
